This month we feature service offerings from Parameter Driven Solutions. Having served enterprises in the Greater Toronto Area for more than two decades, we know the data centre. Our services team has a proven record in deploying world-class solutions which increase competitiveness and drive down costs.

→ Integration Services

Our fully certified consultants at Parameter Driven Solutions are experienced in deploying leading-edge products to power the data centre. We offer a full-service IT suite of Assessment, Architecture, Deployment, Testing/Tuning and

Management. Our expertise in state-of-the-art computing systems, advanced storage and data availability solutions, systems management software, middleware and multi-tier web applications will provide the competitive edge for your business.

For a complete list of our service offerings, click on [What We Do](#).

→ Staff Augmentation Services

When a staffing crunch hits, trust Parameter's experience to get you through. Our experienced consultants are deployed for short and long term engagements for project management and application architecture, as well as day-to-day tasks

such as server rollouts, system and network administration, database management, and special projects. In addition, we can meet your requirements for qualified software developers to develop and tune custom software including Java and XML applications.

 **The PDS Edge**

Parameter is **driven** to help you succeed. Our unique business model had reduced our own costs of doing business, meaning we can deliver fully-qualified services at competitive rates. We back all of our services with our own personal commitment that we will do whatever it takes to include you as one of our loyal customers. Call us to see why so many of Canada's leading companies are looking to Parameter for their IT Consulting needs.

If you are unsure of exactly what equipment is ideal for your environment, let us put together the best possible solution at the best possible price and support you with the highest level of after sales service. Call us today or visit [our website](#)

Sincerely,

Mark Broadus
