SEATING IS LIMITED

SUN PRODUCT UPDATE AND ROADMAP PRESENTATION

Parameter Driven Solutions, in conjunction with the Product Management Team of Sun Canada, hope you can join us for one of these very timely and informative sessions.

WHY YOU WANT TO ATTEND

- **In April and July Sun will be announcing the End of Life (EOL) of the majority of its SunFire product line. What are your alternatives if you need to run Solaris 8 or 9??? Attend the Server session and find out**
- **On the x64 front Sun recently announced their Intel relationship and the fact that they are now shipping Windows as a preload. Is Sun a viable alternative to your present Windows server and blade environment ??? Attend the x64 session and find out.**
- **What's new on the SunStorageTek front? Does Sun now have a low cost array solution? What about the new tape offerings??? Attend the Storage session and find out**
- **Sun's Try & Buy Program is a huge success. They just added more server and storage systems to the selection chart. Need more information on this program, what's available to "Test Drive", how do you sign up??? Attend one of these sessions and find out.**
- **Breakfast is on us...**
